

Town of Chandler
Permit Application for Drainage Culvert

Section 1. Requirements

1. Culvert minimum size is 12 inches in diameter; culvert to be of extruded double wall HDPE construction with a smooth inner surface. Additional size may be required in specific situations; determination to be made by Storm Water Management Department.
2. Drainage Pipe installed across the property requires two inlets per side. Planning Director may change inlet locations, as needed.
3. Disposal of old pipe may be done by the Town’s employees in certain situations.
4. For residential driveway culverts, the Town will remove old culvert, install new one, and replace with fill taken from the dig; the Town will not replace asphalt, rock, or concrete.
5. Permit is valid for 90 days from the date of issue, and work must be started within that 90 day period; work must be completed within 180 days.
6. In some cases, at the discretion of the Storm Water Department, a professional engineer licensed by the State of Indiana may be required to certify that actions proposed will comply with Chandler’s Drainage Ordinance; any cost for such certification will be at the expense of the property owner.
7. All action or actions taken by approval of this permit must be in compliance with the drainage standards approved by the Storm Water Management Department, must assure proper drainage of the area in question, must not present a public safety hazard to upstream or downstream property or public right-of-way, and must be in compliance with all other provisions of the Ordinances of the Town of Chandler and State Law.
8. Permit Fees: \$40 Driveway only; \$100 Width of Yard only; \$140 Driveway and Width of Yard
